Tasminloka sritah sarve tadu natyeti Kascan | etad vai tat ||**

(That person who is awake in those that sleep, shaping desire after desire, that, indeed, is the pure.
That is Brahman, that, indeed, is called the immortal. In it all the
worlds rest and no one ever goes beyond it.
This, verily, is that, kamam kamam : desire after desire, really objects of desire.
Even dream objects like objects of waking consciousness are due to the Supreme Person.
Even dream consciousness is a proof of the existence of the self.
No one ever goes beyond it : cf. Eckhart : 'On reaching God all progress ends.')

Accountancy, as a profession has evolved over time and the Chartered Accountancy profession has emerged stronger with testing times and this has empowered the professionals to face the new world with more confidence, expertise and excellence, so that not only the opportunities are exploited to the fullest, but at the same time withstand the ever dynamic economic scenario.

With the role out of Game Changer initiatives like Goods and Services Tax (GST), transition to convergence with IFRS based Ind-AS, Insolvency and Bankruptcy Code 2016, we can expect many more important reforms are going to be implemented in the country. It is a matter of great pleasure that the Union Government of India has identified Accountancy profession as one of the key sector for Export of Services under Champions Sector. With these Reforms, I am quite confident that these initiatives would facilitate a plethora of global opportunities for young Indian Chartered Accountants. In the present scenario, the Indian accountants have become increasingly sought after, especially in the fast-developing nations. In India, the world's developing economic superpower, demand for accountants has increased.

Oman does not have the immense oil resources of some of its neighbours. Nevertheless, in recent years, it has found more oil than it has produced.

Agriculture and fishing are the traditional way of life in Oman. Dates and limes, grown extensively in the Batinah coastal plain and the highlands, make up most of the country's agricultural exports. Coconut palms, wheat, and bananas also are grown, and cattle are raised in Dhofar. Other areas grow cereals and forage crops. Poultry production is steadily rising. In the recent years, despite adverse global developments, the Omani economy continued to sustain the growth momentum.

The major drivers for economic growth are the infrastructure investments associated with national logistics development plans, economic diversification efforts, and trade with the GCC, Asia and Sub-Saharan African countries.

The students coming through direct entry route i.e. graduates and post-graduates with prescribed marks can commence their articleship after registering for Intermediate (IPC) and completing the Information Technology Training (ITT) and Orientation Course (OP). This training has to be done under a practicing Chartered Accountant. This training is very useful as it gives the trainee hands on experience on various aspects of chartered accountancy course i.e. Audit, Taxation, Accounts, Law etc. The selection of firm depends upon your choice of field in which you want to practice in future.

- Please provide, the basis for calculating leave during articleship.

Example;

Ans.: Case 1: An article completed 3 years of articleship till now. So,

Total working days: $365 \times 3 = 1,095$ days
Leaves Taken so far = 100 days
Actual period Served = 995 days
Leaves Earned = $\frac{1}{6}$ th on 995 = 165 days

Leave entitled (subject to sanction of leave by your Principal) = 65 days (165-100 days)

Case 2: An article having a total articleship period of 3.5 years. So, Total working days: $365 \times 3.5 = 1277$ days

Leaves Taken till now = 100 days
Actual Period Served = 1177 days
Leaves Earned = $\frac{1}{6}$ th on 1177 = 180 days (maximum)

Leaves entitled (subject to sanction of leave by your Principal) = 80 days (180-100)
